PRODUCT DATA SHEET

Polypropylene
Daplen™ EG107HP
Polypropylene TPO Compound

Description

Daplen™ EG107HP is a 15% mineral filled elastomer modified high performance polypropylene compound intended for injection moulding.
This material has a very good balance between impact strength and stiffness and gives an excellent surface quality.

Applications

Daplen EG107HP has been developed especially for applications like:

Bumpers
Rocker panels

Body side mouldings
Body panels

Special Features

Excellent scratch resistance
Available with and without UV-stabilisation

Excellent surface appearance on unpainted parts

Physical Properties

Property	Typical Value Data should not be used for specification work	Test Method
Density	995 kg/m³	ISO 1183
Melt Flow Rate (230 °C/2,16 kg)	22 g/10min	ISO 1133
Flexural Modulus (2 mm/min)	1.750 MPa	ISO 178
Tensile Strength (50 mm/min)	20 MPa	ISO 527-2
Heat Deflection Temperature B (0,45 MPa)	100 °C	ISO 75-2
Coefficient of Thermal Expansion (-30 °C/80 °C)	70 µm/mK	Borealis Test Method
Charpy Impact Strength, notched (23 °C)	40 kJ/m²	ISO 179/1eA
Charpy Impact Strength, notched (-20 °C)	6 kJ/m²	ISO 179/1eA

Values determined on standard injection moulded specimens conditioned at 23°C and 50% relative humidity after at least 96 hours storage time.

Processing Techniques

The actual conditions will depend on the type of equipment used.

Injection Moulding

Daplen EG107HP is easy to process with standard injection moulding machines. To avoid residual humidity from transport or storage, the material should be pre-dried approximately 2h at 80°C. Following parameters should be used as guidelines:

Feeding temperature	40 - 80 °C
Mass temperature	230 - 280 °C
Back pressure	Low to medium
Holding pressure	30 - 60 MPa
Mould temperature	30 - 50 °C
Screw speed	Low to medium
Flow front speed	100 - 200 mm/s

Storage

Daplen EG107HP should be stored in dry conditions at temperatures below 50°C and protected from UV-light. Improper storage can initiate degradation, which results in odour generation and colour changes and can have negative effects on the physical properties of this product.

Polypropylene
Daplen EG107HP

Safety
Please see our "Safety data sheet" / "Product safety information sheet" for details on various aspects of safety of the product. For more information, contact your Borealis representative.

Recycling
The product is suitable for recycling using modern methods of shredding and cleaning. In-house production waste should be kept clean to facilitate direct recycling.

Please see our "Safety data sheet" / "Product safety information sheet" for details on various aspects of recovery and disposal of the product.

Regional Availability
Europe
South America: grade available under the name Daplen EG107HPB
For information on regional availability please contact Borealis Sales Representative.
