

**Polypropylene C706-21NAHP**
**Sub-group:**

Impact Copolymer

**Description:**

BRASKEM C706-21NAHP Polypropylene Resin is a high performance impact copolymer for thin wall injection moulding. The grade offers efficient processing, high stiffness at attractive impact resistance level including excellent antistatic properties.

**Applications:**

- Thin wall packaging e.g. containers, pails, flower pots
- Consumer goods articles e.g. household/appliances components
- Other injection moulding articles e.g. filters, filter housings

**Process:**

- Thin wall injection moulding
