

Polypropylene C715-12N HP
Sub-group:

Impact Copolymer

Description:

BRASKEM C715-12NHP Polypropylene Resin is an impact copolymer for various injection moulding applications. BRASKEM C715-12NHP Polypropylene Resin has a good balance of mechanical properties featuring high stiffness and excellent impact strength, also at low temperatures. BRASKEM C715-12NHP Polypropylene Resin is a medium flow impact copolymer exhibiting a higher rigidity impact balance than conventional impact copolymers at similar flow.

Applications:

- Containers, baskets, pails, caps & closures and other consumer applications
- General automotive

Process:

- Injection moulding
