Experimental Grade. Please contact your Celanese representative for further information.

### Description

Chemical abbreviation according to ISO 1043-1: POM-HI POM copolymer, modified Hostaform® S 4000P CT is an impact-modified acetal copolymer with high flowability for demanding injection molding applications. Hostaform® S 4000P CT has a significantly higher MVR compared to Hostaform® S 27064, with comparable mechanical properties, and is non-hygroscopic in nature. It is recommended for long flow length and/or thin-walled part geometries.
