

ExxonMobil™ PP3295G1

Polypropylene Homopolymer

Product Description

A free-flowing, ultrahigh melt flow rate homopolymer resin designed for meltblown nonwoven applications.

General

Features	▪ Good Processability	▪ High Flow
Uses	▪ Industrial Applications	▪ Nonwovens
Appearance	▪ Natural Color	
Form(s)	▪ Granules	
Processing Method	▪ Fiber (Spinning) Extrusion	

Physical	Typical Value (English)	Typical Value (SI)	Test Based On
Melt Flow Rate (MFR) (230°C/2.16 kg)	1000 to 1630 g/10 min	1000 to 1630 g/10 min	ExxonMobil Method
