PEBAX® 5513 SA 01

POLYETHER BLOCK AMIDE PELLET

PEBAX® 5513 SA 01 is a polyether block amide, a thermoplastic elastomer made of flexible polyether and rigid polyamide. This SA grade offers the highest quality. It is used in sport and consumer applications, especially when food contact compliance is requested. Added to PA6, PEBAX® 5513 SA 01 enhances the properties of PA6, especially at low temperatures and low humidity content, while maintaining the transparency of the polyamide film and improving its soft touch.
