# Polypropylene PPC 11812

Technical data sheet  
Polypropylene – Heterophasic Copolymer  
Produced in Europe

## Description

Polypropylene PPC 11812 has been developed for high speed injection moulding of thin walled packaging containers requiring top level impact resistance at cold temperature (-20°C). It is characterized by a high Melt Flow Index of 50 g/10 min, and allows an optimization of the injection parameters as for example a reduction of the cycle time, while keeping properties even at cold temperature (impact).
