Polyethylene LDPE CD 0230

Technical data sheet
Low Density Polyethylene CABLE
Produced in Europe

Description

LDPE CD 0230 is an unstabilized low density polyethylene produced by a high pressure process.

LDPE CD 0230 is designed for medium voltage power cable insulation using peroxide crosslinking process.

Characteristics

Property	Method	Unit	Typical value
Density	ISO 1183	g/cm ³	0.922
Melt Flow Rate (190°C/2.16 kg)	ISO 1133	g/10 min	2.0
Melting temperature	ISO 11357	°C	109
Vicat temperature	ISO 306	°C	94

Values indicated are typical for this product. Density and MFR are properties routinely measured during "the standard quality control procedure". The other figures are generated by tests not included in the "standard quality control procedure", and are given for information only.
Data are not intended for specification purposes.
