SOL THX 1050

Styrene - Ethylene/Butylene Radial Block Copolymer

Europrene® SOL THX 1050 is a multi-arm block copolymer obtained by selective hydrogenation of branched styrene-butadiene-styrene block copolymers. It contains a non-staining, TNPP free antioxidant system.

Main Properties	Test Method	Unit	Typical Value
Bound Styrene Content	Internal Method	% wt	7
Volatile Matter	ASTM D 5668	%	1 max
TP*	Internal Method	cSt	4,5
SSI*	Internal Method	%	12

*1% wt in Eni SN 150

Key Features

Europrene® SOL THX 1050 is a tailored amorphous polymer designed as a viscosity index improver for lubricating oil.

Main Applications

The product is used as oil viscosity modifier.

Physical Form

Europrene® SOL THX 1050 is produced in Ravenna Plant (Italy) in a compact form.

Packaging

Available in bags on pallet. For detailed information, please refer to your Versalis representative.

Storage Conditions

Store the preparation in a covered place in sealed packaging, away from sunlight and heat sources. Ensure the proper ventilation in all storage areas.

Shelf life: 24 months
