

# EVERCAP™ DMDD-1210 NT 7 High Density Polyethylene Resin

## Overview

EVERCAP™ DMDD-1210 NT 7 High Density Polyethylene Resin enables the right performance properties to meet demanding closure and fitment application needs. It is intended for use in both compression and injection molded closure applications. This resin has been designed to meet demanding performance requirements, especially in the areas of stiffness, impact strength, and sensory, while maintaining good processing characteristics beneficial to molders. Typical applications include injection molded closures for water, juice, dairy, and sports drinks, including hot fill and aseptic bottling applications, where minimizing the contribution of the package to the taste of the product and use of slip is a requirement.
