

# LLDPE FU149A

YUCLAIR FU149A is butene-1 copolymer designed for manufacturing multi-purpose high-slip automatic packaging film. YUCLAIR FU149A shows superior slip property, tensile strength, tear strength, gel-free, antiblock and sealability. Outstanding clarity and good processibility make this resin an ideal choice for film application when blended with conventional LDPE. YUCLAIR FU149A can be processed readily into blown film using standard extrusion techniques. YUCLAIR FU149A complies with FDA regulations in 21 CFR177.1520 for all food contact.
