

EXPERIMENTAL DATASHEET

TECHNYL 4EARTH C2E 218 V45 BK H
(Previously ECONAMID FL 6G45H2 BK)

Polyamide 6, 45% glass fiber reinforced, for injection moulding, black

General

| | |
|--------------|-------------------|
| Polymer type | PA6 (Polyamide 6) |
|--------------|-------------------|

Product identification

| | |
|-----------------------|---------------------------|
| ISO 1043 abbreviation | PA-GF45 |
| ISO 16396 designation | PA6,GF45(R100),M1,S14-140 |

| Condition | Standard | Unit | Value |
|-----------|----------|------|-------|
|-----------|----------|------|-------|

*Test run at 23°C if not differently specified, DAM state (dry as moulded), valid for black products.
: conditioned according to ISO 1110
