

ELTEX® B4922/20N3000

Product Technical Information

ELTEX® PE 100 Stripe Products

Coloured stripes are often co-extruded on black pipe to enable the end use to be identified. The appropriate stripe products are available for use with the TUB 121 PE 100 series pipe compounds as listed below.

Applications

- For identification of Gas/Water/Sewer applications

Benefits and Features

- Coloured stripe compounds for use with PE 80 compounds
