

PREADD SL 101

0611

PREADD SL 101 is a slip masterbatch for blown PE-LD films.

PREADD SL 101 is based on highly purified erucamide, which is neutral in odour and colour. PREADD SL 101 does not give problems in printing, heat sealing or bonding if not overdosed.

PREADD SL 101 is approved for use in contact with foodstuffs according to FDA regulations without limitations and according to BgVV regulations as long as the dosage of PREADD SL 101 is less than 3.3%.

Appearance	Granule
Carrier	PE-LLD
Colour	Transparent
Additive	Erucamide, 7.5 %
Density	0.9 g/cm ³
Temperature stability	< 260 °C
Dosing	0.5 - 1.5 % depending on desired slip level
Moisture content	Max. 0.25% when produced
Packaging	1000 kg in 20 kg PE valve bags on a one-way stretch wrapped pallet
Storage	Can be stored for one year in its original package. Packages should be stored indoors.

The information in this data sheet represents typical values obtained by us and should not be regarded as a specification.

We condition that the product will be inspected and qualified by the customer for his process to meet the specific requirements set by application, processing equipment and end product.
